There is no doubt that the issue of each one's future is one of the most important thing in our life.

My ambition at the moment is to find the job I'd like to work at. I know that it is difficult ^{to achieve}, so I have been thinking about it since ^{the} 8th grade. I think I should try any ways of working while my studying to make a statement who I would become in future. My parents help me with my choosing. Some information can also ^{give an opportunity} ~~help~~ us to make a choice, so I'm trying to find as much as I can. But since there are too many different attractive jobs nowadays, I can't say that I know what I want.
